

# 平成 28 年度 研究計画書

## Research Plan FY2016

講座名・職名 Course Title・Job Title	アジア I ・特任講師
氏名 Name	趙 瑜美
専門分野 Academic Field	Linguistics

### 平成 28 年度 研究計画 (ホームページで公開) Research Plan FY2016 (Post on Website)

主たる研究テーマ Principal Research Subject	The Semantic Types of Pluractionality: External Pluractionals in Korean				
<p>研究計画 (400 字～500 字で記入すること。) Research Plan (Approximately 100 Words)</p> <p>This study inquires semantic properties of ‘pluractional’ phenomena, by focusing on two linguistic items in Korean which are expected as external pluractional markers: (i) the reduplicative adverb <i>pen-pen-i</i> ‘time after time / time and time again’ and (ii) the verbal complex with an auxiliary verb <i>ssahta</i> ‘cumulate’. For this purpose, this study sets up various semantic environments, examines their pluractional behaviors, and then identifies semantic properties which distinguish each item from other pluractionals.</p> <p>The applicability of semantics presented by this study should be examined by applying it to pluractional phenomena across languages with typological perspectives. The status of pluractional types identified in Korean will be decided in comparison to other languages (e.g. Japanese and English): cross-linguistic or language-specific.</p>					
共同研究可能な分野 Research Fields feasible for joint research *1	Linguistics	Japanese linguistics	English linguistics	Foreign language education	
キーワード Keywords*2	pluractionality	event plurality	temporal repetition	reduplicative adverbs	repetitive aspect
