氏名 Name	I WAYAN PASTIKA
専門分野 Academic Field	Indonesian Linguistics

平成 30 年度 研究計画（ホームページで公開） Research Plan FY2018 (Post on Website)

主たる研究テーマ Principal Research Subject	Forensic Linguistics				
研究計画（400 字～500 字で記入すること。） Research Plan (Approximately 100 Words)					
<p>My research plan for 2018 is a continuation of the research topic on forensic linguistics of the previous year including (1) transcription, (2) data classification and (3) identification. In the transcription there is a process of listening spoken texts and they are orthographically transcribed. This is done in order to find ideas of forensic linguistic cases. The transcribed texts are classified in terms of linguistic categories related to the research problems and they are identified to find out linguistic features for evidences. The subtopic of forensic linguistic cases for 2018 is linguistic violence in the Indonesian social medias. Some of the findings be analyzed in the form of an academic paper and be presented in a linguistic conference.</p>
