平成 29 年度 研究計画 (ホームページで公開) Research Plan FY2017 (Post on Website)

主たる研究テーマ Principal Research Subject	Criminal Cases of Written Indonesian in the Media: a forensic linguistics study				
<p>研究計画 (400 字～500 字で記入すること。) Research Plan (Approximately 100 Words)</p> <p>Texts of criminal cases are collected from the Bali Police Department in Bali-Indonesia during my times as an expert testimony on linguistic forensics from 2012 until 2017. The corpus will be classified into types of media used, types of abusive contents investigated by the police, linguistics aspects considered to be harassment by the victim, and how linguistic evidences be analyzed either supporting or rejecting claims made by the victim. The data analysis will engage with the linguistics field mainly in the area of diction, word formation, syntactic structure, semantics, pragmatics, sociolinguistics and discourse where each of these linguistic aspects may be related to the others.</p>
