主たる研究テーマ Principal Research Subject	**Middle Persian Historical Phonology**

My research on **Middle Persian Historical Phonology** is almost finished. I am now preparing it for publication. What I am doing now is making an index for all the words quoted in my research. This comprehensive index will contain the words of many different languages including proto-Indo-European, Old Iranian (e.g. Avestan, Old Persian, ...), Middle Iranian (e.g. Parthian, Middle Persian, Sogdian, Khotanese, Bactrian, ...), Indo-European languages (e.g. Sanskrit, Greek, Latin, Armenian, ...), Semitic languages (e.g. Akkadian, Aramaic, Arabic, ...), Sumerian, Elamite, etc. I am doing my best to prepare the final version of the book as soon as possible and have it published by Osaka University.
