| 主たる研究テーマ Principal Research Subject | H.C. Andersen and the 'Law of Jante' |
| 研究計画（400 字～500 字で記入すること。） Research My research during the past year, including my stay in Copenhagen in September, dealt with the so called 'Law of Jante', as mentioned in my plan above. I had talks with colleagues in Denmark, visited Copenhagen University and libraries in order to develop ideas about the subject. Especially H.C. Andersen's diaries and letters are good sources on this matter. Secondly, I used empirical observations of typical language problems of my advanced students of Danish, in order to help learners to look through difficulties with idioms, verb-object collocations, prepositions etc. | |
