研究計画 (400 字~500 字で記入すること。) Research Plan (Approximately 100 Words)					
<p>Following the research that I conducted last year, I will continue to pursue and develop the same theme. In the end of the 19th century, in the port of Marseilles, the dockers have progressively replaced the workers of the corporation of porters. From the beginning, the setting up of the new workers has created, in literature, visual arts and social science studies some black legends : «migrant», «outcast», «unskilled», «alcoholic», «thief» or «violent» workers. However, progressively, these legends have turned into a positive view : the dockers became «avant-garde» of «antifascism», «pacifism», «anti-colonialism» and «unionism». The purpose of this research is to understand the process of this radical change in six decades.</p>
