平成 27 年度 研究計画 Research Plan FY2015

主たる研究テーマ Principal Research Subject	A Study on Urdu Prose in Dr. Suhail Bukhari's Critical Writings				
研究計画 Research Plan	<p>Suhail Bukhari is one of the famous Urdu linguists of the twentieth century but at the same time Bukhari wrote many critical articles on Urdu prose such as fairy tales of dastan, short stories and novels. By studying these articles I hope that we can find out the linguistic characteristics of Urdu prose literature. This year I would like to focus on the Urdu prose literature through the study of Bukhari's writings. In this regard, I would like to go to Pakistan for the research trip to collect articles and sources. After the study, I would like to give some lectures on this subject at both classes and research gatherings.</p>
