平成 27 年度 研究計画 Research Plan FY2015

主たる研究テーマ Principal Research Subject	Myanmar morphology				
研究計画 Research Plan	<p>My main interest lies in the morphology of the Myanmar language. I will conduct research in the following topics in terms of linguistics:</p> <ul style="list-style-type: none"> (1) Affixation in the Myanmar language (2) Compounding in the Myanmar language (3) Cliticization in the Myanmar language <p>Discriminating affixation, compounding and cliticization is sometimes fairly difficult in the study of the Myanmar language. One of the important purposes of my study is to recognize differences of these aspects in this language and to contribute to Myanmar linguistics.</p>
