### 平成 26 年度 研究計画 Research Plan FY2014

主たる研究テーマ Principal Research Subject	Japanese Law Students at German Universities during the Meiji and Taisho Period				
研究計画 Research Plan	<p>I intend to continue my research work about the relation between Japanese and German jurisprudence and analyze dissertations of Japanese law students written at German Universities since the Meiji period. I would like to look for more related material at the library of the University of Munich and at the Bavarian State Library, which is also situated in Munich. Through the analysis of these dissertations I want to find out how the reception of German law took place and how the received German law was changed, when it was applied in Japanese society.</p>
